The more detail that is provided, the more accurate the response. (i.e., where are your doors, windows, beams, ducts, furniture, equipment, etc.) Also, please indicate all dimensions.

A large grid area for drawing or writing, consisting of a 30x30 grid of small squares. The grid is enclosed in a thick black border.

**Auralex Free Personalized Room Analysis Terms:** We are proud to provide free product application support to all our customers. Please note the following:

1. Auralex is confident our products will perform as described in our literature. Please understand that since we are unable to be on site to experience sound in your actual room(s) and since room acoustics is a subjective science, we are unable to guarantee actual acoustical results in your room(s) after treatment with Auralex products.
2. Due to an ever-growing demand for acoustical assistance and the popularity of Auralex products, our free Personalized Room Analyses are limited to a maximum of two (2) hours of phone discussions, e-mails and/or faxed correspondences. This is necessary to ensure we can assist everyone in a timely fashion. If your product application support needs exceed this limit, an Auralex representative will contact you to discuss additional options.
3. Auralex free Personalized Room Analyses are limited to customers using Auralex products. The contents of our product application support correspondences are applicable only for Auralex customers using Auralex products. Using the information contained therein for the application of non-Auralex products voids any claims made concerning expected acoustical results.
