

ChromaFly™

ChromaFly is made of polyester with Trevira® thread and comes with grommets on all four sides of the panel. It is available in either Chroma Key Green or Chroma Key Blue, making this butterfly ideal for rigging any virtual production. Manufactured to fit a variety of standard grip frames.

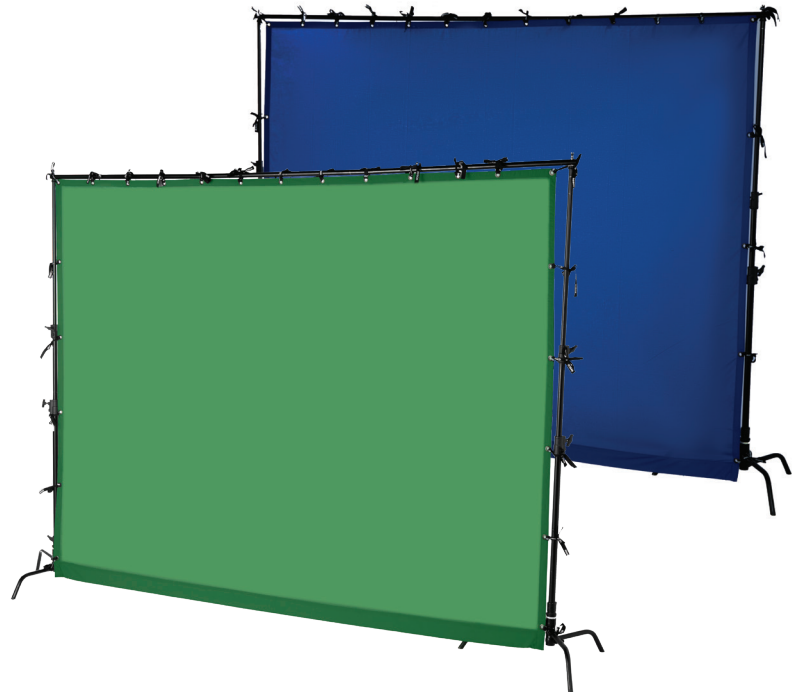

- Custom sizes available
- Ideal color for chroma key digital compositing
- Inherently Flame Retardant (IFR) fabric
- Stainless steel grommets on all four sides at 9.8" (25cm) centers
- Ready for use out of the bag

ChromaDrop™

ChromaDrop expands on the Chroma butterfly family with grommets on the top and sides, and a weighted pipe pocket on the bottom. Available in both Chroma Key Green and Chroma Key Blue, excellent for hanging for temporary or permanent virtual set installations.

- Custom sizes available
- Ideal color for chroma key digital compositing
- Waterproof, washable, and durable
- Ready for use out of the bag
