

Recordex StudioJet™

Professional Color Disc Printer

Automated Full Color Printing

The Recordex StudioJet 50 disc printer is an automated print solution that allows you to print up to 100 CDs or DVDs unattended. While you are doing other things your StudioJet™ will get the job done!

Amazingly Easy to Use

Simply attach it to your computer running Windows XP or Vista via the included USB 2.0 cable and use the included Discus Label Editing program or any graphics program of your choice to print simply amazing discs.

Unmatched Commercial Grade Quality

Our units are tough as nails but weigh just 19 pounds. As soon as you take the StudioJet™ out of the box you will know why Recordex has been the professional's choice since 1969.

Never Wrestle With Labels Again

Adhesive labels are expensive, time consuming to print and affix, and reduce the quality and professionalism of the finished product. Once you start printing on discs you'll never go back to labels. Our StudioJet™ supports all brands of inkjet printable media and utilizes the highest resolution inkjet system available for disc printing.

Where is the Robot?

Good question. Most autoprinters use robotic picking arms. We've designed a better autoprinter by eliminating the robotic loading arm. No more alignment problems caused by shipping, no more waiting for the robot to pick up and move the disc, no more worries. Our simple feed system delivers a single disc perfectly every time and does it faster than just about any autoprinter on the market.

Save nearly \$40 every time you buy a set of cartridges!

StudioJet 50™ AutoPrinter
Automated 50 Disc Printer, Model#: SJ50
Uses Standard HP Inks (HP56/57)

Print at nearly half the Cost of other Printers!

Say goodbye to expensive ink. We chose to design an open print solution that allows the use of standard off-the-shelf ink cartridges. **Other disc printers use proprietary ink cartridges that cost nearly twice what you'll pay for HP ink!** Print and save with the Recordex StudioJet 50™. Print for **less than a dime a disc!**

Incredible Warranty Protection

Nobody understands service like Recordex™, and we'll prove it with our Standard 12-Month No Hassle Warranty.

Fastest Disc Cycle Time. Period.

The StudioJet™ is just plain fast. With fastest in the industry print cycle times you'll be amazed at just how many discs you can print. Other more expensive printers boast higher capacity, but you'll find the StudioJet™ gets the job done quicker due to our innovative loading mechanism that virtually eliminates disc load time.

StudioJet 100™

† Savings claim based on an October 25, 2007 online price comparison of HP C6657AN and HPC6658AN ink cartridges with Microboards CX-1/PF-3 ink cartridges (V101B and V1012C) and Primera Bravo Pro ink cartridges (18C0050 and 18C0710). Prices for a set of cartridges (one color and one black cartridge) were compared.
