- Digital hybrid noise-cancelling technology
- Ambience control (noise-cancelling, hear-through, talk-through)
- 5.8 mm high-resolution drivers, adopted from the ATH-TWX9
- LDAC codec compatibility enables playback of 24-bit/96 kHz audio files
- Includes two sets of eartips (XS/S/M/L): Soft eartips for greater comfort during long listening sessions and Standard eartips for a snugger, more secure fit
- Two selectable call modes (Natural and Noise-Reduction) ensure crystal-clear call quality
- Call test function allows you to check the tone and clarity of your voice
- The microphone can be easily muted during calls via built-in controls
- Soundscape function plays relaxing sounds of nature, a masking noise to help you concentrate, or sounds for meditation
- Multipoint pairing function allows you to stay connected to two Bluetooth devices at once
- Approximately 6.5 hours of continuous playback and up to 13.5 hours of extended use with the charger (for 20 hours total)
