

Stingray Mini 60W

VW,WW,CW,RGBW
(1) 60W LED Mini Spot

Accessories Sold Separately

GENERAL INFORMATION

The **elektraLite Stingray Mini 60W** bring color mixing and versatile white light to this compact yet powerful line. The **Stingray Mini** utilizes a 60 watt COB LED which provides a clean and rich color mixing light output. The **Stingray Mini 60W** is thus perfect for any show, event or even for displays in a museum or galleries.

The **Stingray Mini 60W's** sophisticated, zoom lensing system provides a packed punch of light in beam spreads from 20° to 40°. Four independent shutter blades give perfect in-focus cuts to the beam.

This powerful, well-rounded LED lighting fixture has a rugged all-metal design and its on-board display and programming makes it easy for anyone to bring vibrant colors to a wide variety of public spaces. The front barrel and zoom assembly rotates 360° allowing for the shutters to be in any position. The barrel can also be removed for cleaning of the shutters and lenses.

The **Stingray Mini 60W** has a slot for a pattern holder and a double slot for gel/color frame holder is at the front for diffusion, color correction or any other medium. Control of the **Stingray Mini 60W** is via DMX or the fixture can be set to run manually or even automatically.

FEATURES

- single COB 60 watt (RGBW, Variable White, Warm White, Cool White) LED giving rich consistent light with no hot spot
- 0-100% dimming using DMX or can be set manually for each color
- In-built zoom mechanism with no chromatic aberration.
- double slot gel frame holder with safety clip for accessories and gel frame
- housing features rotating barrel assembly, pattern holder slot, and four shutter blades for perfect in-focus beam cuts
