## CREATIVE BEAMWASH MOVING HEAD WITH FRESNEL LENS

SPEC SHEET

Setting a new standard for compact moving heads, **MAC One** is a revolutionary Beam, Wash and Eye-Candy fixture, featuring a captivating Fresnel lens that transforms any stage or event into an extraordinary visual spectacle. Compact, lightweight, and highly versatile, MAC One defines a new compact class of performance lighting.

MAC One excels in three powerful feature areas. First, its narrow, high-intensity beam packs the same punch as larger, heavier fixtures to enable robust and vibrant aerial effects. Next, its stunning Fresnel lens creates a soft wash with a wide 4 to 27-degree zoom range, delivering seamless transitions and engaging visual effects. Rounding out the robust feature-set is an innovative backlight system with 24 RGB effect LEDs within the lens to guarantee memorable and show-stopping visual experiences.

With an impressive output of 2,400 lm and a narrow beam intensity of 300,000 cd, MAC One's performance is unparalleled in its category. Powered by a custom-developed 120 W RGBL [Red, Green, Blue, Lime] LED engine, it ensures higher light quality [CRI, TM-30, TLCI] than traditional RGBW fixtures, appealing to discerning lighting designers.

MAC One stands out against competing fixtures by delivering an innovative combination of features in an incredibly compact and low-weight form-factor. The fixture is easy to handle and manage, opening up a world of creative possibilities for lighting designers and users. More fixtures can be used in a show without compromising weight or space limitations, resulting in lower transport costs and a significant return on investment for rental companies.

For additional versatility, MAC One can also be used with the interlocking accessory system originally created for Martin's VDO Atomic products. Martin fourbar and matrix accessories can also be used to further extend its design potential and ease large quantity deployment. MAC One can be driven with DMX, Art-Net, sACN, and Martin P3 control systems for seamless integration into any lighting setup.

Whether you are a lighting designer, rental company, or event organizer, MAC One is the answer for creating big looks with many fixtures, utilizing a compact fixture for tight spaces or enthralling the stage with captivating eye-candy effects. Transcend expectations, empower creative expression and revolutionize the stage with MAC One.

LIGHTWEIGHT
Easy to move
and install

NARROW FAST BEAM Very impressive and snappy beams

**BEAUTIFUL BACKLIGHT**Unique eye-candy looks
from Fresnel Lens
and backlight effect

FRESNEL WASH Compact wash light that fits everywhere

SCALABLE
Easy to deploy in large
quantities using smart
rigging accessories

## CREATIVE BEAMWASH MOVING HEAD WITH FRESNEL LENS

SPEC SHEET

## **FEATURE HIGHLIGHTS**

#### A PUNCH ABOVE + WELL DEFINED INTENSITY

With 2,400 lm output from a form factor just above 4kg, MAC One features great output to size ratio, delivering impressive light output from a compact and lightweight fixture. Additionally, MAC One's narrow beam intensity of 300,000 cd ensures a well-defined, tight, fast, and responsive mid-air beam.

#### **HIGH QUALITY LIGHT OUTPUT**

Martin's custom-designed 120 W RGBL (Red, Green, Blue, Lime) LED engine with higher CRI / TM-30 / TLCI offers better rendering of people and costumes for demanding broadcast and theater applications.

#### BEAUTIFUL TO LOOK AT, BEAUTIFUL TO LIGHT UP

MAC One offers precision control for the most demanding applications in broadcast and theatre and the ability to remove unwanted flicker in broadcast applications. It also offers beautiful eye-candy, empowering it to decorate the stage when the fixture is not being used as a beam or wash.

#### **BEAMING BRILLIANCE**

With a 4 to 27 degree zoom, MAC One can deliver a tight, fast, and well-defined beam, but also a soft-edged wash with its championed Fresnel lens, often loved by lighting designers.

### **EXTREMELY COMPACT SIZE**

Weighing just 4.4 kg / 9.7 lbs., MAC One is easy to deploy in large quantities and reduces shipping costs and environmental impact. It's also perfect for venues with load-bearing limits or space-constraints.

#### **ACCESSORY ADAPTATIONS**

With the optional fourbar accessory, MAC One fixtures can be transported, rigged, unrigged, and cabled in blocks of four, saving time when deploying several fixtures. An optional grid mount adapter enables the fixtures to be rigged in (self-supported) lines and matrices for creation of a 'wall of light' without needing a custom rigging structure. Lines and matrices can contain a mix of MAC One and VDO Atomic Bold and Dot fixtures.

## **FEATURES**

#### Light Source

- Light Engine: Custom in-house developed 120 W RGBL (Red, Green, Blue, Lime) LED offering higher light quality (CRI, TM-30, TLCI) than RGBW.
- Lumen Output: 2400 lm
- Intensity: 300,000 cd in narrow beam

#### Optics

- Zoom: 4 to 27 degrees zoom
- 150 mm Fresnel lens
- 24 RGB backlight LEDs

#### Construction

- Weight: 4.4 kg / 9.7 lbs.
- Weather rating: IP20-rated

#### Control

- DMX, Art-Net, sACN & Martin P3 control.
- Battery-powered display for setup and configuration.

### Installation

- Single omega bracket attachment
- M12 threaded holes for direct clamp attachment or attachment to four-bar accessory
- Optional four-bar accessory.
- Optional grid mount ring accessory.

## **ORDERING INFORMATION**

MAC One in Cardboard (in cardboard box with cardboard inlay): P/N MAR-90250200HU

MAC One in dual SiP (in cardboard box with dual SiP foam flight case insert): P/N MAR-90250205HU (to be ordered in multiples of 2)

MAC One white in Cardboard (in cardboard box with cardboard inlay): P/N MAR-90250210HU

#### **INCLUDED ITEMS**

- Single omega bracket with 1/4 turn fasteners for rigging clamp attachment
- SoftLens
- Multi-Language Safety and Installation Manual

#### **RELATED ITEMS**

- VDO Atomic Bold in cardboard: P/N MAR-90357703
- VDO Atomic Dot CLD in cardboard: P/N 90357701
- VDO Atomic Dot WRM in cardboard: P/N 90357702
- Martin Companion Cable (for firmware update over DMX): P/N 91616091
- Martin Companion Software (for firmware update over DMX/Ethernet): Free download from martin.com

# CREATIVE BEAMWASH MOVING HEAD WITH FRESNEL LENS

SPEC SHEET

## **TECHNICAL SPECIFICATIONS**

DYNAMIC EFFECTS	
Beam Dimmer/Shutter	.0-100% continuous dimming, regular and random strobe, instant open and blackout
Beam Dimming options	. Choice of four dimming curves
Beam Color Mixing	. RGB, independently variable 0-100%
Beam Color Temperature Control	. Variable 1,000-12,850 K
Beam Tint Control	. Variable green-magenta shift Δuv -0.05 - +0.05
Beam Virtual Color Wheel	. 48 color presets, continuous rotation & random color
Zoom	. Motorized with 1:5 ratio, including zoom pulse effect
Pan	. Motorized 540°
Tilt	. Motorized 240°
Beam P3 Mix	. Videomapping of fixture with variable crossfade between DMX control and video control
Backlight Dimmer/Shutter	. 0-100% continuous dimming, regular and random strobe, instant open and blackout
Backlight Dimming options	. Choice of four dimming curves
Backlight Color Mixing	. RGB, independently variable 0-100%
Backlight Color Temperature Control	. Variable 1,000-12,850 K
Backlight Tint Control	. Variable green-magenta shift $\Delta uv$ -0.05 - +0.05
Backlight Virtual Color Wheel	. 48 color presets, continuous rotation & random color
Backlight Pixelmapping	. Individual RGB control of each of the 24 Backlight panels
Backlight P3 Mix	. Videomapping of fixture with variable

#### **CONTROL AND PROGRAMMING**

Control Protocols	DMX, RDM, Art-Net, RDM over Art-Net sACN and P3
Protocol Detection	Automatic
DMX Modes	Compact, Basic, Ludicrous & Compact Direct
DMX Channels	. 20, 36, 108 & 20
16-bit Controllable Parameters	Beam & Backlight Dimming, Beam Color Mixing, Zoom, Pan and Tilt
Setting and Addressing	Display Menu, RDM, RDM over Art-Net or P3
Local User Interface	Backlit LCD Display with battery- powered operation
Fixture identification	User-settable ID number
DMX Compliance	USITT DMX512-A
RDM Compliance	ANSI/ESTA E1.20
Art-Net Compliance	Art-Net 1, 2, 3 and 4; including RDM over Art-Net

sACN Compliance	ANSI E1.31 - 2016
Martin P3 Compliance	P3 System Controller Software 5.1.0 or newer
DMX/RDM Transceiver	Galvanic-isolated RS-485
Ethernet Transceiver	10/100Mbit (with fail-safe bypass)
·	via DMX using Martin Companion or via Ethernet using Martin Companion / P3 System Controller
