XANTECH®

XTR39 Hand-Held LCD Remote Control

The new XTR39 Color LCD touchscreen remote control from Xantech is the perfect solution to the clutter of difficult-to-use remote controls that accompany most home theater systems.

The XTR39 is a stylish, simple-to-use remote control that can be personalized via its vivid full color 3.9" touchscreen display: button layout can be customized; easily identified icons created for virtually any function or command; and multiple screen pages allow less frequently used buttons to be concealed.

Pick it up, and the XTR39 comes to life. Dedicated buttons for the most frequently used buttons such as volume, channel, power, and mute are perfectly positioned. A convenient touchwheel control sets the XTR39 apart, allowing quick scrolling through menus and commands.

All screen buttons and icons can be programmed to perform multiple commands with a single touch. Additionally, the XTR39 can be configured to control nearly any major system in the home such as A/V system, lighting, climate control, and more.

The XTR39 can be programmed with the same functions and screen appearance as all other Xantech SPLCD SmartPad LCD™ in-wall touchpanels installed in the home, for consistency and simple operation.

FEATURES

- Vivid 3.9" Color LCD touchscreen display
- Fully customizable screen graphics and functions
- Capable of controlling virtually every major home system
- Hard buttons for frequently used commands
- Four easy access programmable macro buttons
- Touchwheel control for quick scrolling through menus and commands

- Eight megabyte internal memory
- RF capable remote
- Long-life rechargeable Lithium-Ion battery with battery status indicator and charging stand
- Programmed via Xantech's Universal Dragon Drop-IR™ programming software
- Uses same graphics and commands as SPLCD SmartPad LCD™ touchpanels.

XANTECH SYSTEM

The XTR39 is part of the comprehensive Xantech system of products that include multi-room A/V distribution and control, in-wall LCD touchpanel controllers, and source components. The XTR39 designed to work seamlessly with the complete Xantech line, and Universal Dragon Drop-IR™ programming software makes it simple to add a convenient LCD touchscreen remote control to a system that performs identically to the wall-mounted LCD touchpanels in the room.

PROGRAMMING

Xantech's new Universal Dragon Drop-IR™ programming software makes it simple to set-up the XTR39 with the same backgrounds, icons, graphics and commands as all other Xantech Commercial SmartPad LCD™ in-wall touchpanels installed in the job. Users will appreciate the consistent look and feel between the XTR39 and Xantech touchpanels. When it's time to update the system, Universal Dragon saves time and effort.

Specifications:

- Processor: ARM7 Microcontroller
- Processor Speed: 50 MHZ
- Memory Size
    Random Access Memory: 8 MB
    Flash Memory: 8 MB
- LCD
    Colors: 256
    Size: 3.9" Diagonal
    Number of Pixels: 76,800
    Orientation: Portrait (240 x 320)
- Touch Screen: Resistive Touch
- Buttons: 11 Touch Positions
- Rotary Wheel: 4 Touch Positions
- Battery Type: Lithium Ion Polymer
- Unit Battery Life
    Standby on Full Charge: 6   Days
    Normal Daily Operation: 2.5 Days*
    Charge Time: 3.5 Hours
    Delivery Condition: ~80% charged

- RF capable remote (2.4GHz. IEEE 802.15.4)
- Cradle Interface Connector: Molded 8-Pin
- RF Direct Range: 50' to 100'
- RF Frequency: 2.4 GHz
- IR Range: 30'
- IR Learn Capability: Yes
- IR Library: Yes
- Unit Size: 6.5" x 3.5" x 1.1"
- Unit Weight: 10oz (0.28kg)
- Unit Color: Black
- Programmable: Universal Dragon
- Programming Interface: USB 1.1
- Lead Free Unit
- Cradle Specifications
    Unit Size: 4.5" x 3.75" x 1.25"
    Unit Weight: 5oz (0.14kg)
    Unit Color: Black
    Power Requirements:5 Volts DC @ 2.5A
    Unit Interface Connector: Molded 8-Pin
