HSA
Rolltop Audio Desks

HSA Desks and racks provide a way to house audio & video equipment in style. Handcrafted from premium northern oak faces, with solid oak tambours, they look like expensive furniture (but reasonably priced!), but open the roll top, pull out the hidden lower racks, and you can house virtually anything! HSA desks and racks can be custom-ordered for specific requirements & measurements as well. We handle the complete line of HSA desks and racks, call your sales associate for assistance.   LIST

Superior product specifications and quality make RAXXESS studio furniture the most attractive and versatile in its price range. All surfaces are of 1 1/8" furniture grade hardboard, smartly finished in ebony fleck laminate and edged with solid oak that is oiled and finished to enhance the warmth of wood. All support structures are fabricated from 14 and 16-gauge cold rolled steel and finished in black textured powder coat. Threaded steel inserts insure a secure and lasting connection between all steel and wood components-No wood screws are used.

Config-U Raxx

The Config-U-Raxx studio furniture system from RAXXESS is a completely modular workstation designed to compliment the modern studio environment. A wide range of components allows a system to be configured to suit any room size and shape, while the new dynamic height adjustment system allows any desktop surface to be adjusted from 26" to 31" above the floor. The Config-U-Raxx system is available in maple and ebony fleck finishes with gray bull nose trim. All steel surfaces are coated with an attractive grayhammer tone finish.

ROTR-Rack

The RAXXESS ROTR rack is perfect for installing in existing cabinetry or new millwork. The system is available in sizes from eight to twenty four rack spaces. Available in a two (ROTR-2) or four (ROTR-4) slide formats capable of supporting 150 and 300 pounds respectively. The rack extends a full twenty inches from its frame and is then capable of rotating 90 degrees in either direction, allowing unobstructed access to components regardless of their depth. The system locks in the closed position with security panel and screws provided. Easy and effective cable management system and eight-space rear rack rail are included. The ROTR-XL features a 24" deep platform, which allows the ROTR rack to be recessed in an enclosure for use with flush-mounted doors. The ROTR-XL has a 300-pound capacity and is available in eight to twenty-four rack spaces.   LIST

B24 ProPanels

Auralex B24 ProPanels are decorative, fabric-wrapped absorptive panels that meet Class A fire ratings per ASTM-E84 standards. The 1" thick, 2' by 4' beveled-edge panels have a 0.8 Noise Reduction Coefficient (NRC), making them the perfect choice for absorbing slap and flutter echo in applications such as schools, gymnasiums, theaters, houses of Worship, board rooms as well as recording and broadcast studios. They are available in 4 Spinel fabric choices (Sandstone, Tiger Eye, Garnet, Obsidian). The minimum order quantity is 6 panels.   LIST

LENRD Bass Traps

LENRD (Low End Node Reduction Device) Bass Traps are triangular shaped, irregularly wedge-cut pieces of Studiofoam that give superior broadband absorption, but especially at low frequencies, and perfectly fit room corners & wall/ceiling junctures. LENRDs are the easiest and most cost-effective way to control excess low frequency energy without sacrificing large amounts of cubic space. They have virtually no competition and famous studio designers love 'em. You should pick up some LENRDs today! (Recommended Adhesive: 1 Foamtak or 2 Tubetak per box) Sold individually.   LIST
LENRD-BASS-TRAPS *32.38*
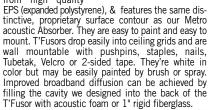

CALL FOR PRICE

Studiofoam Pyramids

A perfect combination of looks and great sound! Pyramids offer tons of versatility, provide virtually seamless installations, supply a bit of extra diffusion due to their 4-sided geometry and give a really cool look to your studio. If you want to your place to look upscale and distinctive, you should give Studiofoam Pyramids strong consideration. They look absolutely fabulous! 2'x4' sheets. LIST

CALL FOR PRICE

Diffusors

MetroFusor is made from high quality EPS (expanded polystyrene), & features the same distinctive, proprietary surface contour as our Metro acoustic Absorber. They are easy to paint and easy to mount. T'Fusors drop easily into ceiling grids and are wall mountable with pushpins, staples, nails, Tubetak, Velcro or 2-sided tape. They're white in color but may be easily painted by brush or spray. Improved broadband diffusion can be achieved by filling the cavity we designed into the back of the T'Fusor with acoustic foam or 1" rigid fiberglass.   LIST
