

ETYMOTIC RESEARCH ER-4 MICROPRO™ EARPHONES

The ER4 earphones feature Accu-Driver™ balanced-armature, precision-matched, custom-tuned drivers. The ER4S earphones are designed to be used with amplified sources and the ER4PT are for portable sources such as iPods. The ER4PT includes ACCU-Fit eartip options to ensure seal and comfort. Both models have 20Hz-16kHz frequency response, 122dB maximum SPL and 35dB to 42dB of noise isolation. Includes 5' cable with 3.5mm plug.

ITEM	DESCRIPTION	PRICE
ER4S	Balanced armature earphones	299.00
ER4PT	Balanced armature earphones for iPod/MP3, includes eartip options	299.00

ETYMOTIC RESEARCH MC3 & MC5 NOISE-ISOLATING EARPHONES

The mc3 earphones have a 3-button control and in-line mic and are compatible with the iPod® touch (2G, 3G, 4G), iPod® classic, iPod® nano (4G, 5G, 6G), iPod® Shuffle (3G, 4G), iPhone® (3GS, 4) and the iPad™. The mc5 earphones feature tight, accurate bass with clear high-frequency detail at all listening levels. Also features a high-output 8mm neodymium moving coil driver, a 20Hz-15kHz frequency response and 35dB to 42dB of noise isolation. Both models have a 4' cable with 3.5mm plug and come in black, red, blue, or green.

ITEM	DESCRIPTION	PRICE
MC3	Moving coil earphones w/ 3-button control and in-line mic (choose color)	99.00
MC5	Moving coil earphones (choose color)	79.00

ETYMOTIC RESEARCH HF5™ EARPHONES

These high performance noise-isolating earphones have a high output sensitivity of 105dB SPL and have an 85%+ response accuracy from 20Hz-15kHz. Also feature 35dB to 42dB of noise isolation and include a 4' Kevlar-reinforced cable with a 3.5mm jack. Available in black, ruby and cobalt.

ITEM	DESCRIPTION	PRICE
HF5	Noise isolation earphones (choose color)	149.00

HEAR TECHNOLOGIES

FUTURESONIC FSM5 & FSM8 The Atrio series features completely new designs and technologies. They offer a natural feel with accurate dynamic bass frequency response, warm rich vocal tone and clean detailed clarity in the upper frequencies. MG7 proprietary dynamic drivers deliver bigger sound at lower volume. Other features include a 4' 3" cable with 1/8" TRS plug, 32ohm impedance, 112dB sensitivity and 18Hz-20kHz TruTimbre frequency response.

ITEM	DESCRIPTION	PRICE
FSM5	Personal earphone monitors, black onyx	179.00
FSM8	Personal earphone monitors, cobalt blue	179.00

KOSS® KOSS ISOLATION EARBUDS

Micro in-ear canal headphones, with quality sound. Frequency response is 20Hz-18kHz (The Plug/Pathfinder), 10Hz-20kHz (KDX100, KDX300, CC01), and 15Hz-20kHz (KDX200). Unique earbud design directs sound into the ear canal for deep bass and extended frequency performance. Specialty ear cushion material forms slowly in the ear canal to provide a custom fit and maximum isolation. The CC01 features a cloth-covered dual-entry cord and a Custom Fit dial that helps you adjust the size of the ear cushion.

ITEM	DESCRIPTION	PRICE
THE-PLUG	Earphones – black, comes with 4 extra ear cushions	12.26
THE-PLUG-CUSHION	Replacement set of ear cushions for The Plug	8.43
PATHFINDER	Earphones – silver/white	15.86
KE29S	Earphones – silver/black w/ 3 sizes of ear cushions	19.80
KDX100	Earphones – silver/black w/cloth cord and 2 types of ear cushions (silicon or memory foam)	43.56
KDX200	Earphones – silver/black w/cloth cord and 3 sizes of ear cushions	58.08
KDX300	Earphones – black/gold w/cloth cord, deep bass, and 3 sizes of ear cushions	72.60
CC01	Earphones with adjustable ear cushions, red	108.87

MONSTER

MONSTER CABLE BEATS™ SERIES EARBUDS

In-ear models feature flat tangle-free cords and come with carrying case and multiple pairs of in-ear tips. Models with the ControlTalk™ function feature a built-in mic for voice & video chatting on iPod Touch and iPhone, as well as volume, pause, and track forwarding capabilities for use with iPhones and iPods.

ITEM	DESCRIPTION	PRICE

Westone

THE IN-EAR EXPERTS

WESTONE AC SERIES CUSTOM-FIT IN-EAR MONITORS

These in-ear monitors use Westone's custom-fit technology to deliver monitors that are molded specifically for your ear. They feature clear, cold-pour acrylic bodies, balanced armature drivers, and removable EPIC Pro cables. Over-the ear cable design offers superior in-ear comfort and isolation from mechanical cable noise.

ITEM	DESCRIPTION	PRICE
AC1	In-ear monitor, single driver, 20Hz-16kHz, 114dB max SPL, 25ohms	299.00
AC2	In-ear monitor, dual driver, 20Hz-18kHz, 119dB max SPL, 27ohms	399.00

WESTONE ELITE SERIES CUSTOM IN-EAR MONITORS

The Elite Series™ are custom-molded in-ear monitors to eliminate and reduce onstage noise levels and vocal fatigue. They feature balanced armature drivers, over-the-ear cable design and a body heat-activated "flex-canal" to ensure a perfect acoustic seal. Available in a wide variety of colors.

ITEM	DESCRIPTION	PRICE
ES1	In-ear monitors, single driver, 40Hz-16kHz, 114dB max SPL, 25ohms	375.00
ES2	In-ear monitors, dual drivers, 20Hz-18kHz, 119dB max SPL, 27ohms	650.00
ES3	In-ear monitors, 3 drivers, 20Hz-18kHz, 124dB max SPL, 25ohms	800.00
ES3X	In-ear monitors, 3 drivers, 20Hz-18kHz, 124dB max SPL, 56ohms	850.00
ES5	In-ear monitors, 5 drivers, 8Hz-20kHz, 120dB max SPL, 20ohms	950.00

WESTONE UM SERIES IN-EAR ISOLATING HEADPHONES

Experience isolation from outside noise and accurate sonic reproduction with low distortion. The UM Series are universal fit monitors and have comfortable, replaceable Comply™ foam tips. The UM3X-RC offers 3-way, balanced armature for incredibly smooth response across the entire frequency range. Each model is equipped with a durable 50" stereo "Y" cord and a 3.5mm stereo jack. Each also includes a wax loop for cleaning & padded travel pouch.

ITEM	DESCRIPTION	PRICE
UM1	Single driver earphones, 40Hz-16kHz, clear	109.00
UM2-RC	Dual driver earphones, removable cable, 20Hz-18kHz, clear	299.00
UM3X	3 driver earphones, 20Hz-18kHz, black/clear	379.00
UM3X-RC	3 driver earphones, removable cable, 20Hz-18kHz, black/clear	399.00
