PITCHBLACK.....	Chromatic Tuner Pedal.....	89.99

**t.c. electronic**

**TC ELECTRONIC POLYTUNE POLYPHONIC GUITAR / BASS TUNER** Strum all your strings at once and this polyphonic tuner tells you which ones need tuning. It is equally effective for guitar or bass. The reference pitch can be set anywhere from 435Hz to 445Hz, and it allows for dropped tunings from E-flat all the way down to B. It also includes 2 chromatic tuning modes (needle and stream) and has a "MonoPoly" feature that recognizes whether you are playing 1 or more strings to instantly set the tuning mode. This compact unit features an ambient light sensor to automatically adjust the brightness of the LEDs, 1-screw access to the battery compartment (battery included) and when powered by 9V DC it can power other pedals.

<b>ITEM</b>	<b>DESCRIPTION</b>	<b>PRICE</b>
POLYTUNE.....	Polyphonic tuning pedal.....	99.00

**whirlwind**

**WHIRLWIND WT2000 STAGE TUNER** A bright and accurate inline tuner built to withstand the rigors of the road. It has an extremely fast response with an ultra-bright display which can be easily seen even outdoors. It is accurate and simple to use. The footswitch turns the unit on, and mutes the output for silent tuning. When switched off, the circuit is completely powered down to save battery life. Powers from internal 9V battery or from any standard 9VDC pedal supply.
