LUDWIG USA SERIES CUSTOM DRUMS

For over a century Ludwig has been crafting some of the most widely-used and oft-recorded drums in history. With a huge variety of shell types, sizes, and configurations you can design the perfect kit for your playing style. Legacy Classic drums use the 3-ply shell formula introduced in 1923. Legacy Exotic drums add a modern twist to the 1923 design by adding a thin veneer of exotic wood on the outer shell. The Classic Maple series is a 7-ply formula for optimum resonance and tonality. Ludwig's famous see-thru, Vistalite drums have been updated to provide greater stability to the shells. And finally, the Stainless Steel shell drums originally created in 1978 have been re-introduced as a limited edition ProBeat kit with 1.5mm hand-rolled steel shells. With so many options available please call your Full Compass sales pro for help designing your dream kit.
