

KEMPER PROFILING AMP

An entirely new way to capture the sound of any amp, "Profiling" creates dynamic, multi-dimensional representations of tube amps that have never before been possible. Profiling an amp is as simple as plugging your amp into the Profiler and pressing "record." Once profiled you can control the sound of the amp as never before, including definition, power sagging, pick attack independent of gain, amp compression, and cabinet voicings. In addition to the vast library of profiled amps the Kemper boasts a huge library of stomp box effects, a powerful EQ section, speaker cabinet profiles, and ample I/O.

TC ELECTRONIC G-SYSTEM

The G-System is a complete solution for guitar effects on the stage or in the studio. It has a unique dual-DSP system that provides TC quality effects. The G-System can also control channel switching in your amplifier, and power additional pedals. It allows for 9 of the built-in effects to be used simultaneously and has deep control over parameters and setup of its 18 footswitches. Ample I/O includes USB, MIDI, Exp. and Vol. pedal, and 4 effects loops on 1/4".

ITEM	DESCRIPTION	PRICE
G-SYSTEM	Multi-effects processor	CALL

Fender

FENDER MUSTANG™ FLOOR

Fender's first-ever multi-effect unit delivers pro-level amp-modeling and effects as well as artist presets for a variety of musical styles. The Mustang™ Floor works in two modes, you can page through the 100 factory and user presets or use it in stompbox mode where each of the 9 footswitches control an individual effect of the preset. There are 12 amp models, 37 effects, and a USB interface for direct recording to a computer or by using Fender's FUSE™ software to edit and share your customized sounds. Headphone output, dual 1/4" output, dual XLR outputs with level control, and an auxiliary input complete the I/O.

ITEM	DESCRIPTION	PRICE
MUSTANG-FLOOR	Guitar multi-effect w/USB interface	299.99

BOSS

BOSS GT-100 GUITAR EFFECTS PROCESSOR

The GT-100 represents the next generation in COSM® amp modeling and effects. Featuring a newly-improved user interface that uses a unique dual-LCD system, enhanced EZ TONE setup as well as AMP and OD/DS customization modes, the GT-100 is more powerful and more user-friendly than any previous Boss multi-effect. It has 400 presets (200 User), COSM® amp and cabinet models, compressor and preamp effects, and a huge library of special effects from Boss including reverbs, auto wah, harmony effects, phase, flange, rotary, tremolo, and much more. Ample I/O includes balanced XLR outs, USB, MIDI and much more.

ITEM	DESCRIPTION	PRICE
GT100	Guitar multi-effect processor	549.00
F55U	Single footswitch	27.50
F56	Dual-footswitch	55.34
EV5	Expression pedal	77.23

LINE 6

LINE 6 POD HD SERIES

POD®HD series of effects units featuring 16 HD amp models and a comprehensive digital and analog I/O. Line 6 amp modeling technology captures 10 times more amplifier information than before, including single-ended Class 'A' tube stages, Class 'AB' push/pull interactions, and power supply behavior. The 24-second (48-sec on HD500) looper includes dedicated footswitches for Play Once, Pre/Post, Rec/Overdub, and Play/Stop. All models have 1/4" and XLR outputs (mono/stereo), MIDI, and USB.

ITEM	DESCRIPTION	PRICE
POD-HD-300	Effects units, 80+ M-class effects, L6 Link jack, MP3/CD in	329.99
POD-HD-400	Effects units, 90+ M-class effects, L6 Link jack, FX loop, pedal in	399.99
POD-HD-500	Effects units, 100+ M-class effects, S/PDIF out, L6 Link jack, FX loop, 1/4" aux in, XLR mic in w/level, pedal in, Variax VDI connection	499.99

LINE 6 M13 STOMPBOX MODELER

This is a complete pedal board experience featuring a comprehensive collection of effects and real-time control. The M13 allows for up to 4 simultaneous effects to be used with stompbox-style knobs for control. Any combination of settings can be stored in one of the 48 available scenes. The M13 also includes a 28-second looper, 19 delays, 23 modulation effects, 17 distortions, 12 compressors and EQ's, 26 filter effects, and 12 reverbs.

ITEM	DESCRIPTION	PRICE
M13	Stompbox modeler	499.99

LINE 6

LINE 6 M9 STOMPBOX MODELER

The portable M9 Stompbox modeler has a wide variety of over 100 tones and is perfect on its own or as an addition to a pedal board. It can run 3 effects simultaneously with any other 3 on deck and has a 28-second looper with tap tempo. Features 6 dedicated footswitches (record/overdub, play/stop, play once, undo/redo, half-speed and reverse) for easy and functional use. Tweak tones on the fly using the dedicated knobs and settings will remain even when powered down. Also has MIDI in/out, 1/4" pedal in, and 1/4" mono/stereo in and out (with true analog bypass or DSP bypass).

ITEM	DESCRIPTION	PRICE
M9	Stompbox mmodeler	399.99

VOX TONELAB ST

A true tube driven preamp sets this floorboard apart from others. The latest Tonelab has 33 amplifier models that range from classic Vox amps to high-end boutiques and modern high-gains. Other features include 11 speaker cabinet models, 25 versatile effects, dedicated knobs for easy editing, 50 factory/50 user presets, tuner, noise reduction, and USB.

ITEM	DESCRIPTION	PRICE
TONELAB-ST	Tube-driven multi-effect	199.99

ZOOM

ZOOM G3-USB

This guitar effects and amp simulator puts the power of three pedals into one stompbox. Each of the three effects has its own LCD display, dedicated knobs, and on/off footswitch making it easy to make adjustments on the fly. The G3 includes 94 different stompbox models and 13 amp models. It has a 40-second phrase looper and a USB output for DAW-based recording.

ITEM	DESCRIPTION	PRICE
G3	Stompbox modeler	169.99

ZOOM G5

The new G5 allows for 9 simultaneous effects and has 4 large LCD displays. Like the G3 there are dedicated knobs for easily editing stompbox models on the fly. The G5 also adds an assignable expression pedal that can swivel left or right, allowing it control 4 parameters at once. The Tube Booster feature uses a vacuum tube to add up to 16dB of amp overdrive and includes a tone knob for EQ adjustments. It includes over 120 effects, balanced XLR output, built-in drum patterns, 60-second looper w/overdubbing, USB for audio recording, and editor software for Mac or PC.

ITEM	DESCRIPTION	PRICE
G5	Stompbox modeler	299.99

MOOGERFOOGERS

INTRODUCING THE MF-104M ANALOG DELAY

MF-104M Analog Delay - The holy grail of Analog Delays is back! 6 waveshape LFO, tap tempo and MIDI. **MF-108M Cluster Flux** - More than just a simple Chorus/Flange, this is the ultimate time modulation pedal. **MF-101 Low Pass Filter** - The original. From auto-wah to monster bass, this classic Moogerfooger rocks! **MF-105M MIDI MuRF** - Unique sequenced patterns with 8 analog filters for shimmering bliss to percussive beat making. **MF-103 12 Stage Phaser** - The most flexible, lush Phaser on the planet. From ultra-low phase to Leslie-esque modulation. **MF-102 Ring Modulator** - Create everything from deep wobbling tremolos to raw metallic overtones. **MF-107 FreqBox** - Wide range of effects, from fuzz distortion to modular synth-style creations. Nothing does what the FreqBox does.
