

### KEMPER PROFILING AMP

An entirely new way to capture the sound of any amp, "Profiling" creates dynamic, multi-dimensional representations of tube amps that have never before been possible. Profiling an amp is as simple as plugging your amp into the Profiler and pressing "record." Once profiled you can control the sound of the amp as never before, including definition, power sagging, pick attack independent of gain, amp compression, and cabinet voicings. In addition to the vast library of profiled amps the Kemper boasts a huge library of stomp box effects, a powerful EQ section, speaker cabinet profiles, and ample I/O. The standard Kemper comes in a lunchbox-style chassis, however a 19" rackmount version is also available.

ITEM	DESCRIPTION	PRICE
PROFILER-HEAD	Guitar amp profiling and effects	2133.00
PROFILER-RACK	As above, 19" rackmount version, 3RU	2133.00
<b>Accessories</b>		
KPA-BAG	Gigbag for Kemper Profiling amp	131.00

### BOSS ME-80

Ideal for the performing guitarist, the latest ME multi-effect is compact, battery powered, and built for the stage. A familiar knob-based interface allows easy editing of up to 8 simultaneous effects and the 8 multi-function footswitches, along with the assignable expression pedal, provide the flexibility needed to tailor the unit to your show. A 38-second phrase looper, effects too numerous to mention are joined by Boss' flagship-level COSM amp modeling. The unit can also be used as a USB audio and MIDI interface and the free Studio Tone software allows deep editing in a software environment as well as access to other users settings on the Tone Central website.

ITEM	DESCRIPTION	PRICE
ME80	Multi-effect pedal for guitar	299.00

### BOSS GT-100 GUITAR EFFECTS PROCESSOR

The GT-100 represents the next generation in COSM® amp modeling and effects. Featuring a newly-improved user interface that uses a unique dual-LCD system, enhanced EZ TONE setup as well as AMP and OD/DS customization modes, the GT-100 is more powerful and more user-friendly than any previous Boss multi-effect. It has 400 presets (200 User), COSM® amp and cabinet models, compressor and preamp effects, and a huge library of special effects from Boss including reverbs, auto wah, harmony effects, phase, flange, rotary, tremolo, and much more. Ample I/O includes balanced XLR outs, USB, MIDI and much more.

ITEM	DESCRIPTION	PRICE
GT100	Guitar multi-effect processor	499.00
FS5U	Single footswitch	27.50
FS6	Dual-footswitch	55.34
EV5	Expression pedal	83.17

### BOSS GP-10 GK GUITAR PROCESSOR

This versatile guitar processor functions as a multi-effect unit as well as guitar synth processor. Combined with the Roland GK-3 pickup, the GP-10 gives you access to dozens of guitar tunings, instrument models of electric guitars, acoustic instruments like banjo and sitar, bass guitars, and synthesizers. It will also output the GK-pickup data as MIDI through its USB port allowing you to sequence in a DAW or trigger external MIDI instruments. It also includes COSM® amp and effect models from the GT-100 that can be used with the standard output of your guitar which you can blend with the GK-pickup signal. Available with or without the GK pickup, the GP-10 includes editor software for Mac or Windows which allows for editing, saving, storing and sharing your customized patches.

ITEM	DESCRIPTION	PRICE
GP-10GK	Guitar synth processor and multi-effect with GK-3 pickup and cable	499.00
GP-10S	Guitar synth processor only	399.00

### ROLAND GR55 GUITAR SYNTH PEDALBOARD

A guitar/bass modeler with a triple-core engine that consists of 2 PCM synths and COSM® guitar modeling that includes a number of guitar, bass, amp, and synth models. These combined technologies allow unique creation and revolutionary sounds. For example, the "Metal Synth Lead" preset combines 2 types of thick, brilliant synth textures with an overdriven solid-body/humbucking tone for incredible punch and power. Features revolutionary fusion of guitar synthesis and powerful COSM® guitar modeling, up to 4 sound sources at a time (2 PCM synth tones, plus COSM® guitar modeling and normal guitar input), superb sound quality, lightning-fast processing, over 900 latest fully editable PCM sounds (including pianos, organs, strings, vintage synths, and more), 2 types of multi-effects engines, global reverb, chorus, delay effects, onboard looper, and a built-in USB audio player with foot control. Available with or without GK-3 Divided Pickup.

ITEM	DESCRIPTION	PRICE
GR55GK-BK	GR55 with divided pickup	799.00
GK3A	Divided pickup	219.00
