Marshall AMPLIFICATION

NEW!

MARSHALL AMPLIFICATION VINTAGE SERIES TUBE GUITAR AMPLIFIERS

The Vintage Series comprises faithful reproductions of Marshall's classic originals. The 1959SLPX is a reissue of the late '60s/early '70s 100W Super Lead Plexiglass head, as used by countless classic bands. Sharing the same front and rear panels, the 50W 1987XL has its own distinct personality with sweet and warm tonality. The 2203X is a reissue of the JCM800, a single-channel, master volume 100W amp with more gain and aggressive tone than the 1959SLPX. All models include a switchable Series Effects Loop with true bypass.

ITEM	DESCRIPTION	PRICE
1959SLPX	100W Super Lead Plexi head (3x ECC83, 4x EL34)	2199.00
1987XL	50W Plexi head (3x ECC83, 2x EL34)	1699.00

1960AX	100W angle cabinet, 4 x 12" 25W Celestion Greenback speakers	1099.00
1960BX	100W straight cabinet, 4 x 12" 25W Celestion Greenback speakers	1099.00
1960TV	100W Tall angle cabinet, 4 x 12" 25W Celestion Greenback speakers	1099.00

MARSHALL AMPLIFICATION HAZE SERIES TUBE AMPLIFIERS

The Haze15 mini head contains 3 ECC83 preamps and 2 6V6 power tubes, while the 2 speaker cabs come loaded with 12" Celestion G12T-66 Marquee speakers. The same speaker and build qualities are found in the Haze40. With EL34 power tubes, this 40W combo contains all the features of the Haze15, plus an independent boost switch for each channel, line out with loudspeaker emulation, and a switchable external effects loop. The adjustable Echo, Vibe, Chorus and Reverb effects feature true bypass. Both amps include a 2-way footswitch for quick channel changes and FX on/off. The optional 4-way foot controller for Haze40 offers extra functionality and control, and connects with a simple guitar lead.

ITEM	DESCRIPTION	PRICE
MHZ15	Haze15 15W tube amp head w/digital FX	599.00
MHZ40C	Haze40 40W 1x12" tube combo amp w/digital FX	699.00

motion sound

MOTION SOUND SRV SERIES ROTARY GUITAR SPEAKERS

These non-powered mechanical rotary speaker cabs are designed for guitar with power provided by the guitarist's amplifier. They include adjustable Fast/Slow/Stop speeds adjustable via knobs (control pedal input can be used) and transition time, and the built-in stereo mics are connected to XLR outputs for direct out applications. The special auto-stop ensures the rotor faces forward when stopped for use as a normal guitar cabinet. 1/4" input on both models.

ITEM	DESCRIPTION	PRICE
SRV112	1x12" rotary guitar speaker, non-powered, 50W @ 8ohms	799.00
SRV212	2x12" rotary guitar speaker, non-powered, 100W @ 4ohms	849.00

ORANGE

ORANGE TINY TERROR ALL TUBE GUITAR AMPS

Featuring a two stage pre-amp with a massive tonal range using just three controls, housed in a 1.5mm Zintec chassis with steel vented top case. It switches from 15 to 7 Watts for studio use and recording. The combo version features an 18mm plywood cabinet and fitted with a Celestion G12H30 speaker. The Dual Terror switches from 30W to 15W to 7W making it the ultimate versatile portable amp. The Fat Channel delivers warmer tones while the other channel has the sonic character of the original Tiny Terror.

Honesty and Value since 1971

ORANGE

RK50HTC-MKII

ORANGE ROCKERVERB SERIES TUBE GUITAR AMPLIFIERS

The Rockerverb series uses a 2-stage clean channel and a 4-stage dirty channel with EL34 output tubes. The EQ controls are interactive with each other, giving a wide range of tones from clean to high gain with only 3 controls. The non-master volume Clean channel can be cranked up for power section overdrive, while the Dirty channel offers a wide range of distortion tones. MKII improvements include a mid EQ control on Clean channel, more transparent FX loop, and a larger reverb driven by ECC83 valves.

ITEM	DESCRIPTION	PRICE
RK50C-MKII-112	Rockerverb 50 Combo, 50W twin-channel, 1x12" Celestion Vintage 30 Speaker	2299.00

RK100HTC-MKII	Rockerverb 100 Head, 100W twin-channel	2299.00

ORANGE TH30 TUBE GUITAR AMPLIFIERS

These amps feature a half-power switch on the front, 2 or 4 power tube switch on the rear, making it switchable from 7, 15 or 30 Class A Watts. It can go from sparkling Fender-like clean tones to metal and beyond with the twist of only 3 knobs per channel. The Clean channel has Treble, Bass and Volume controls, while the Dirty channel has Gain, Shape and Master Volume. The shape control facilitates a variety of tones from classic rock to scooped metal with all variations in between. Includes a valve-driven effects loop.

PEAVEY

PEAVEY 6505 SERIES GUITAR AMPS Named in celebration of Peavey's first 40 years, the 6505 Series is a re-launch of the 5150 Series, the popular amplifiers Peavey designed with Eddie Van Halen. As with the 5150 Series, these amps became the "go-to" guitar amps for scores of rock, hardcore and metal bands due to their raw tone, power and reliability.

PEAVEY

PEAVEY TRANSTUBE® GUITAR AMPLIFIERS

Reliable solid-state amplifiers with TransTube® technology that emulates the sound and feel of tube amplifiers. Preamps tailor the gain level for the desired amount of drive and the power amp responds with natural compression that increases with the amp's volume. The result is a line of amplifiers with widely ranging dynamics and natural "grit," just like a real tube amp. All TransTube combos feature Clean and Lead channels and Blue Marvel® speakers.

PEAVEY VYPRE GUITAR AMPLIFIERS

VYPRE amplifiers are based on a combination of 32-bit, floating-point SHARC processors and patented TransTube analog circuitry giving them twice the processing power, models and effects as other modeling amplifiers. Features include 24 amp channel models, both the clean and distorted channels of 12 popular amps, plus 11 editable preamp "stomp box" effects and 11 editable post-amp "rack" effects with dual-parameter control. Players can use up to five effects simultaneously. When used with the optional Peavey Sanpera™ II foot controller, the possibilities further expand from 12 in-amp presets to 400 programmable presets, with an on-board looper. The VYPRE also acts as its own computer audio interface, with a built-in USB 2.0 output on most models. The entire six-model VYPRE series features the easy-to-use Peavey WYSIWYG (What You See Is What You Get) interface.

ROLAND AC SERIES ACOUSTIC GUITAR AMPLIFIERS

The AC60 & AC90 use DSP for lush stereo/multi-band chorus - including a new "wide" mode, plus delay/reverb and auto anti-feedback control. The "wide" mode is replaced with a 3D ambient effect on the AC33. The 2-chnl design has a guitar input and a mic/line input (phantom power on AC60 & AC90 only). Mute switch for silent tuning on stage (not on AC33). Features a built-in tilt stand and mountable on commercial speaker stands. The AC33 has XLR, 1/4", RCA & stereo 1/8" ins, L/R 1/4" line outs, 1/4" headphone, and 1/4" footswitch jacks. The AC60 & AC90 have 1/4", XLR-1/4" combo in, stereo RCA & 1/4" AUX ins, L/R XLR line outs, 1/4" mono line out, 1/4" sub out, 1/4" DI out, and 1/4" footswitch jacks.

The 15W amp offers overdrive, distortion, metal zone, extreme lead types, and an independent clean channel. The 20W model features independent JC clean channel (JC-120 amp emulation), lead & solo w/boost chnls, metal, metal stack lead types, delay, COSM spring & reverb, chorus, flanger, phaser, tremolo, solo and heavy octave effects. The 40W amp adds 80 second phrase looper, memory capability for solo channel, and 10 COSM amp models (acoustic sim, black panel, brit combo, tweed, classic stack, metal stack, R-fier stack, extreme, dyna amp). Similar as the 40W, the 80W version adds a DLX combo COSM amp model & 3-band EQ plus presence control. The 40W & 80W models have 3 footswitch jacks/chnls. The 80W amp has a 1/4" external speaker jack.

TRAYNOR DARKHORSE 15W TUBE GUITAR HEAD

This all-tube guitar head provides 15W in a sub-compact head & cab combo designed for travelling musicians. Simple Gain, Bass, Treble and Master controls are augmented by a "Pure" switch, which bypasses the tone stack to deliver the most direct signal path possible between your fingers and the speaker. Output is selectable between a higher head-room 15W pentode stage and a 2W triode stage for increased drive. Includes 8ohm & 16ohm outputs. The DarkHorse DHX12 extension cabinet features a removable back panel to convert from a closed to an open back cabinet quickly and easily.

VOX BRUNO GUITAR AMPLIFIERS

These amps, made in collaboration with boutique amp designer Tony Bruno, deliver a distinctly American tone from (4) 6V6 power tubes and (3) 12AX7 preamp tubes, plus a 12AX7 and 12AT7 tube to drive the reverb unit. The single-channel preamp has Volume, Bass, Middle, and Treble controls. Features include a footswitchable Macho mode for boosted mids and overall gain, Bass Boost, and bypassable Master Volume. Both models are equipped with Celestion G12-65 loudspeakers, along with external speaker jacks, and a VFS-1 footswitch.

VOX AC CUSTOM SERIES AMPLIFIERS

These amps offer 2 channels - Normal and Top-Boost. Each is equipped with its own volume control, and the Top Boost channel offers highly interactive Treble and Bass tone controls. Both channels rely on the Tone Cut and Volume controls in the Master section. Includes tremolo with adjustable speed and the depth, and spring reverb. Models feature EL84 power tubes, Celestion G12M Greenback speakers (except for the AC30C2X), switchable (8 or 16ohm) external speaker jack (mutes internal speakers), and 16ohm extension speaker jack (works in conjunction with internal speakers).

VOX HAND-WIRED TUBE GUITAR AMPS

These amps feature turret board hand-wiring and traditional Top Boost/Normal 2-channel design. The Top Boost channel utilizes a fully interactive tone stack with a HOT/COOL switch, where the HOT setting bypasses the tone circuitry. All models include a VFS1 footswitch for switching between HOT/COOL settings. The controls for the Normal channel are simply a volume knob and BRIGHT switch. Overall volume can be controlled via a Master Volume (w/switchable bypass) and an Output Power mode switch, which can cut the wattage in half. All models are covered with retro-style fawn-colored vinyl.
