M-2000-BLB

FINISH OPTIONS:

G&L TRIBUTE M-2000 SERIES The M-2000 and M-2500 expand the sonic palette of what was already one of history's most versatile basses. The Leo Fender-designed MFD™ pickups have been paired with an all-new 18V preamp system designed by Paul Gagon. The M-2000's preamp uses top quality components like the LF442 chip, and 100% poly caps provides a whole new range of tones and incredible headroom. Transparent finishes feature ash bodies, solid finishes offer basswood bodies. All necks are hard-rock maple with rosewood or maple fretboards.

G&L TRIBUTE SERIES L-2000 Bass is the foundation of rock n roll – the instrument that all others build on. Basses need bases to build upon too, and the heart of this bass is the flexible TriTone™ control system. This system features mini-toggle switches for pickup selection (G&L's MFD pickups, of course), series/parallel signal routing, active/passive operation, and volume/treble/bass knobs. Great for anything from R&B, rock to modern country, this bass uses the Leo-designed Saddle-Lock™ bridge to create an incredibly resonant instrument.

G&L M-2000 GTS G&L's proprietary MFD™ humbucking pickups are matched to a studio-quality 18V preamp with LF442 chip, 100V poly caps and mil-spec circuit board to create a tone monster. The top bound maple-capped mahogany body offers a striking transparent black finish and black headstock. Other features include 3-band EQ with center-detent knobs and "pan" control to blend sounds from the pickups. The hard rock maple neck sports the classic 1-5/8" "C" contour.

TRIBUTE SERIES SB-2 ELECTRIC BASS This bass's familiar body style is sleek and well-balanced. The modern 12" radius "C" neck nestles in your hand comfortably while the MFD™ pickups provide a variety of tones, from modern to vintage, via the J-inspired dual-volume control setup. Leo's Saddle-Lock™ bridge transfers string energy directly into the instrument for incredible sustain.

REVEREND THUNDER GUN A 5-piece set neck, Korina body and custom pickups combine to give the Thunder Gun thick, old-school tone and modern punch. Reverend's pickups are designed to achieve balance in each pickup position giving the bass even volume and tone when switching. Controls include overall volume and tone and a pan between the Thick Brick bridge and Split Brick neck pickups. A lock down bridge and heavy-duty tuners enhance clarity and provide bell-like sustain.
