Recording equipment is always evolving, and Full Compass provides state-of-the-art equipment to meet the demands of professional use. With a wide variety of software applications, interfaces, mixers, monitors and signal processors, we will make sure that you have an affordable solution that can handle all you require from it. The following pages are a small representation of the recording products we offer. For even more options, visit us online at fullcompass.com or call a Sales Pro at 800-356-5844!

APPLE LOGIC STUDIO

With over 200 new features and enhancements, the new Logic Studio delivers everything musicians need to write, record, produce, and perform on a Mac. It includes Logic Pro 9, Apple's professional music application; a massive collection of instruments, effects, and audio loops; MainStage 2 for performing live on the stage; and other applications and utilities that help you create, personalize, and distribute your music.

APOGEE DIGITAL ENSEMBLE

- 8 channels 24-bit 192K AD/DA conversion
- 4 digitally controlled 75db microphone preamps
- 2 fully balanced inserts on mic pre channels
- 4 Hi-Z instrument inputs
- 2 headphone outputs
- 2, 6 or 8-channel monitor outputs
- Optical ADAT, coaxial S/PDIF, and word clock I/O

- Soft Limit
- "UV22HR" for superior dither
- Dual-stage "Intelliclock"
- Complete integration & control w/ Logic Pro
- CoreAudio support
- Maestro software control and routing

ENSEMBLE 18-in/18-out FW interface (Mac) 1995.00

APOGEE DUET 2

- Redesigned mic preamps and converters
- 24-bit/192kHz recording
- 2 analog line/mic combo inputs
- 4 x 1/4" TRS balanced outputs
- Independent speaker and headphone outs
- Full color OLED display
- Multi-function controller knob
- Configurable touch pads
- Maestro 2 software
- Soft Limit

DUET-2 2-in/4-out USB audio interface (Mac).....595.00

APOGEE GIO

- Unbalanced 1/4" high impedance instrument input
- 1/4" MIDI expression pedal input
- Line-level, 1/4" stereo output for headphones, powered monitors or amp
- 44.1/48kHz, 24bit
- 5 Stompbox buttons, color coded to match software effects
- 5 Transport control buttons, dynamically lit when engaged
- 2 "Previous/Next" preset selection buttons
- Control built into Apple's GarageBand, Logic Pro 9, and MainStage 2 software

STEINBERG CUBASE 6

Cubase 6 is your go-to audio workstation for recording, editing, mixing and producing music of all types. Advanced multitrack editing tools, a new take-comping system and the revolutionary VST Note Expression 2 form the centerpiece of Cubase 6 novelties. Its refined new interface offers faster access and more intuitive control than ever before. An outstanding range of effect processors and superior instruments like VST Amp Rack and LoopMash 2 fuel your creative imagination. Cubase 6 is about making your music in the easiest, most effective way.

CUBASE-6	DAW software (Mac/PC)	499.99
CUBASE-ARTIST-6	DAW software (Mac/PC)	249.99

STEINBERG NUENDO 5

Nuendo 5 is the newest incarnation of Steinberg's solution for demanding professionals working in audio, live and post production. Nuendo 5 allows for an ADR-like workflow (including EDL support), comes with excellent surround features, and also provides a unique automatable bus-destination routing system that lets you create different mix versions in one go. A completely new video engine guarantees stable video playback in SD and HD, and the ability to work with multi-mono files means industry openness. An array of additional enhancements and 64-bit technologies boost performance and enables Nuendo 5 to handle even the largest projects.

MIXED LOGIC

MIXED LOGIC M24

The Mixed Logic M24 dedicated remote control surface provides familiar hands-on control for the computer based audio production environment. The M24 offers a traditional recording console style interface and features 24 motorized 100mm touch-sensitive Alps faders, LCD display, rotary controls, LED switches, and transport control with a jog/shuttle/data wheel. It has 3 MIDI ins/outs, USB connectivity, and supports most major DAW applications.

M24	24-fader control surface (Mac/PC).....	2880.00
------------------	--	---------

MACKIE®

MACKIE MCU PRO

MCU Pro integrates with your software like no other hardware controller. The MCU Pro gives you intuitive control of mix and plug-in parameters, real-time visual feedback and plug and play set-up — without any MIDI mapping whatsoever. It features Alps touch-sensitive faders, a full-sized backlit LCD and V-Pots for fast tweaking. Expandable via optional 8-channel MCU Extender Pro.

MCU-PRO	Touch-sensitive control surface.....	999.99
MACKIE-EXTENDER-PRO	8-fader extension for MCU-PRO.....	699.99

novation

NOVATION REMOTE SL SERIES

Features Automap Pro 3 mode detecting which instruments you have in your project and then logically maps the controls to its front panel. The instrument information displays on two backlit LCD screens. It includes 64 assignable knobs, buttons, and sliders, plus 8 velocity sensitive trigger pads, and transport controls. The keys themselves are semi-weighted with full velocity and aftertouch. Plug and play with WinXP/Mac OSX with no drivers to install.

M-AUDIO®

Where do you want to take your music?

M-AUDIO AXIOM PRO SERIES

This series adds TruTouch™ action for more responsive keys and HyperControl technology for automatic MIDI mapping of the keyboard's 65 controls. The graphic LCD updates current values, provides intuitive programming and preset creation, and prevents parameter jumps, even with closed plug-ins. Buttons can be mapped to send QWERTY commands and ASCII keystroke support. Toggle between mixer and instrument control modes quickly and save settings to 50 memory locations. They also feature DAW transport controls, eight velocity-sensitive trigger pads, and are USB bus-powered.
